📍 Wollongong, NSW

PROFILE

If you need a freak that enjoys tedious production paperwork, scheduling, and logistical problem solving, that's exactly who I am!

I really like working with lots of people at once, and I really really like making sure they're going to be safe at work. That's why reading sections of the NSW *Work Health and Safety Act (2011)* doesn't make me want to scream.

I'm not just about safety though, I love creativity, making art, and helping other people make their creative visions come to life.
